Local HSIP Changes for Cycle 10 and Cycle 11
Local HSIP Changes

• Why not stay with SSARP?
  o SSAR had limited requirements
    • Did not include partnerships
    • No public outreach was necessary
    • No discussion of existing efforts
    • No evaluation and/or implementation
    • No enforcement or education discussion
Local HSIP Changes

• Moving Forward with having an LRSPs as a requirement
  o Cycle 10 – call will be April 2020, applications due end July / August timeframe
    • LRSP’s will be recommended but not required
    • Agencies with LRSPs or equivalent will be given priority should there be more applications than funding

  o Cycle 11 – call will be April 2022
    • LRSP or equivalent will be required in order to compete for HSIP grant funding
Local HSIP Changes

• Moving Forward with LRSPs as a requirement
  o In both cycles, SSARP, Vision Zero Plans, Tribal Safety Plans will be acceptable, as equivalent
  o Other plans approved on a case by case basis.
  o We have notified current SSAR recipients that if they have time and funding, to add components of the LRSP to their SSAR report
LRSP Funding

• A total of $80,000 will be available for each Plan
  o $72,000 SSAR / LRSP funds
  o $8,000 Local Funds
  o Additional funds may be added if agency wants more details/ analysis added to the plan such as safety project scoping, etc (like the SSAR)
  o A call for LRSP funding will go out later in September
  o To be used only for the development of the LRSP
LRSP Training

- LTAP will be providing LRSP training on an as needed basis. Currently have two LRSP classes scheduled (month/yr).
- Notification will be sent out to register for the classes
  - November 2019 - CSUS
  - February 2020 - Camarillo
Q & A
